CAMBRIDGE PROGRAM FOR PRIMARY EDUCATION GRADE 3 FOR CAMBRIDGE CS

1. **Time allotment:** 40 weeks (2 sessions/ week – 1 session: 35 minutes)
2. **Course books:** Cambridge Click Start Computer Science for Schools 3
3. **Supplementary Materials:**
4. **Objectives:**

By the end of this course, students will be able to acquire skills and strategies as follows:

4.1. Students understand that the information processing procedure of computers is Input - Process - Output, and understand the difference between hardware and software. Students learn the general operating system overview, how to use the Taskbar, Desktop tools and the parts of Windows.

4.2. Students use the tools in Paint to complete their drawing projects. Students learn how to use the new graphics software - Tux Paint. Students understand the difference between Paint and Tux Paint. Students learn more about the interface parts of Microsoft Word, perform Selecting, Copying, Cutting, and Pasting operations. Students can use the Find, Replace, Redo, Undo, Spelling and Grammar tools.

4.3. Students were introduced to MSWLogo. Students know the interface parts, perform basic operations and use some simple commands of controlling characters. The first step is forming a programming thinking for students.

5. Teaching approach:

5.1. The Communicative and Learner-Centered Approach is used.

5.2. Lessons should be planned basing on the student's needs and their character

5.3. Pair and group-work activities should be applied and encouraged together with the individual ones

5.4. A wide range of activities should be offered to suit different levels of ability.
